SECTION 1. PRODUCT AND COMPANY IDENTIFICATION

1.1 Product identifier

ZOMIG TABLETS
Details of the supplier of the safety data sheet:
ASTRAZENECA PTY LTD
PO Box 131
66 Talavera Rd, North Ryde
NSW 2113
AUSTRALIA
+61 2 9978 3500

Emergency Telephone
+44 (0) 1235 239 670

SafetyDataSheets.AlderleyPark@astrazeneca.com

CAS No.: Not applicable

1.2 Relevant identified uses of the substance or mixture and uses advised against

Use of the Substance/Mixture: Acute treatment of migraine with or without aura

SECTION 2. HAZARDS IDENTIFICATION

GHS Classification
Not a hazardous substance or mixture.

GHS label elements
Not a hazardous substance or mixture.

Other hazards which do not result in classification
The product may form flammable dust clouds in air, if dust from crushed tablets is allowed to accumulate.
See Section 11.

SECTION 3. COMPOSITION/INFORMATION ON INGREDIENTS

Substance / Mixture: Mixture

<table>
<thead>
<tr>
<th>Hazardous components</th>

<td>Chemical name</td>
</tr>
<tr>
<td>Zolmitriptan</td>
</tr>
</tbody>
</table>

SECTION 4. FIRST AID MEASURES

If inhaled: Remove patient from exposure, keep warm and at rest. Obtain medical attention if ill effects occur.

In case of skin contact: Wash skin with soap and water.

In case of eye contact: Irrigate with eyewash solution or clean water, holding the eyelids apart, for at least 10 minutes. Obtain medical attention if ill effects remain.

If swallowed: Wash out mouth with water and give 200-300ml of water to drink.
Do NOT induce vomiting as a First-Aid measure. Obtain medical attention if ill effects occur.

Most important symptoms and effects, both acute and delayed

: Refer to sections 2 and 11

Notes to physician

: Symptomatic treatment and supportive therapy as indicated. For further detail consult the prescribing information.

SECTION 5. FIREFIGHTING MEASURES

Suitable extinguishing media

: water spray, foam, dry powder or CO2.

Unsuitable extinguishing media

: Avoid high pressure media which could cause the formation of a potentially explosible dust-air mixture.

Specific hazards during firefighting

: If involved in a fire, it may burn and emit noxious and toxic fumes.

Special protective equipment for firefighters

: A self contained breathing apparatus and suitable protective clothing should be worn in fire conditions.

SECTION 6. ACCIDENTAL RELEASE MEASURES

Personal precautions, protective equipment and emergency procedures

Environmental precautions

: Prevent entry into drains, sewers or watercourses.

Methods and materials for containment and cleaning up

: Avoid dust generation. Transfer spilled tablets to a suitable container for disposal. Wash the spillage area with water.

SECTION 7. HANDLING AND STORAGE

Advice on safe handling

: Avoid contact with skin and eyes. Wash hands after use. Minimize dust generation and accumulation. The product may form flammable dust clouds in air, if dust from crushed tablets is allowed to accumulate.

Conditions for safe storage

: Keep container tightly closed.

Recommended storage temperature

: < 30 °C
SECTION 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Components with workplace control parameters

<table>

</tbody>
</table>

Engineering measures: The specific controls will depend on local circumstances and should be based on the risk assessment. Appropriate controls to reduce exposure may include engineering controls, for example ventilation, procedural controls and the use of personal protection equipment.

Prevent entry into drains, sewers or watercourses.

Personal protective equipment

Respiratory protection: Use a negative pressure air purifying respirator (half face mask) with filter class P3 if the risk assessment does not support the selection of other protection.

Eye protection: Use safety glasses to protect against direct contact with the product if the risk assessment does not support the selection of other protection.

Skin and body protection: Avoid contact with skin. Use impervious protective gloves to protect against direct contact with the product. If the product is dissolved or wetted use a glove material that is resistant to the solvent/liquid.

Protective measures: Decisions about whether the use of personal protective equipment (PPE) is appropriate as part of the control strategy should be based on the workplace risk assessment and should take account of local legislative requirements for selection and use. There are multiple factors that will affect the specific requirements such as amount and concentration of the material, duration of exposure, frequency of exposure, external environmental conditions, the task, the user etc. All the information above should not be used in isolation and should be considered in the context of the workplace risk assessment on a case by case basis.

The recommended personal protective equipment (PPE) is based on preventing the potential adverse health effects from exposure to the active pharmaceutical ingredient (API). The risk of exposure to the API in the formulation/product needs to be taken into consideration.

SECTION 9. PHYSICAL AND CHEMICAL PROPERTIES
Appearance: tablets

Colour: 2.5mg - yellow; 5mg - red

Odour: No data available

Odour Threshold: No data available

pH: No data available

Melting point/range: No data available

Initial boiling point and boiling range: No data available

Flash point: No data available

Evaporation rate: No data available

Flammability (solid, gas): No data available

Upper explosion limit / Upper flammability limit: No data available

Lower explosion limit / Lower flammability limit: No data available

Vapour pressure: No data available

Relative vapour density: No data available

Relative density: No data available

Solubility(ies)
  Water solubility: No data available
  Solubility in other solvents: No data available

Partition coefficient: n-octanol/water: No data available

Auto-ignition temperature: No data available

Decomposition temperature: No data available

Viscosity
  Viscosity, dynamic: No data available
  Viscosity, kinematic: No data available

Explosive properties: No data available

Oxidizing properties: No data available

SECTION 10. STABILITY AND REACTIVITY
Reactivity: No known reactivity hazard under normal conditions.

Chemical stability: Stable under normal conditions.

Possibility of hazardous reactions: None known.

Conditions to avoid: No conditions producing hazardous situations known.

Incompatible materials: None known.

Hazardous decomposition products: No hazardous decomposition products are known.

SECTION 11. TOXICOLOGICAL INFORMATION

11.1 Acute toxicity
Not classified based on available information.

Product:
Acute oral toxicity: Acute toxicity estimate: > 2,000 mg/kg
Method: Calculation method

Components:
Zolmitriptan:
Acute oral toxicity: LD50 Oral (Rat): 1,000 - 1,500 mg/kg
Acute inhalation toxicity: Remarks: May cause effects as described under single exposure (STOT)
Acute dermal toxicity: Remarks: No information available.

11.2 Skin corrosion/irritation
Not classified based on available information.

Components:
Zolmitriptan:
Remarks: No information available.

11.3 Serious eye damage/eye irritation
Not classified based on available information.

Components:
Zolmitriptan:
Remarks: No information available.

11.4 Respiratory or skin sensitisation
Skin sensitisation
Not classified based on available information.
Respiratory sensitisation
Not classified based on available information.

Components:

Zolmitriptan:
Remarks: No information available.

Chronic toxicity

11.5 Germ cell mutagenicity
Not classified based on available information.

Components:

Zolmitriptan:
Germ cell mutagenicity - : Some evidence of mutagenicity but unlikely to pose a risk to man.
Assessment

11.6 Carcinogenicity
Not classified based on available information.

Components:

Zolmitriptan:
Carcinogenicity - : It is unlikely to present a carcinogenic hazard to man.
Assessment

11.7 Reproductive toxicity
Not classified based on available information.

Components:

Zolmitriptan:
Reproductive toxicity - : Studies in animals have shown that exposures produce no teratogenic effects.
Assessment

11.8 STOT - single exposure
Not classified based on available information.

Components:

Zolmitriptan:
Exposure routes: Oral
Assessment: May produce chest tightness or pain, sedation and increase in blood pressure. May cause nausea, dizziness, dry mouth and taste disturbances.

11.9 STOT - repeated exposure
Not classified based on available information.

Components:

Zolmitriptan:
Assessment: Studies in animals have shown that high doses produce adverse effects on the thyroid gland.
11.10 Aspiration toxicity
Not classified based on available information.

**Components:**

**Zolmitriptan:**
No information available.

**Further information**

**Product:**
Remarks: The following health hazard assessment is based on a consideration of the composition of this product.

### SECTION 12. ECOLOGICAL INFORMATION

**Ecotoxicity**

**Product:**

**Ecotoxicology Assessment**

Chronic aquatic toxicity: This product has no known ecotoxicological effects.

Remarks: The following information refers to active ingredient: Zolmitriptan

**Components:**

**Zolmitriptan:**

Toxicity to daphnia and other aquatic invertebrates:
- **EC50** (Daphnia magna (Water flea)): 250 mg/l
  Exposure time: 48 H
- **EC50** (Daphnia magna (Water flea)): 380 mg/l
  Exposure time: 24 H
- **EC0** (Daphnia magna (Water flea)): 130 mg/l
  Exposure time: 24 H
- **NOEC** (Daphnia magna (Water flea)): 130 mg/l
  Exposure time: 48 H

Toxicity to algae:
- **ErC50** (Pseudokirchneriella subcapitata (green algae)): 160 mg/l
  Exposure time: 72 H
  Method: OECD Test Guideline 201
- **NOEC** (Pseudokirchneriella subcapitata (green algae)): 100 mg/l
  Exposure time: 72 H
  Method: OECD Test Guideline 201

Toxicity to fish (Chronic toxicity):
- **NOEC** (Pimephales promelas (fathead minnow)): 1 mg/l
  Exposure time: 33 d
Method: OECD Test Guideline 210

Toxicity to daphnia and other aquatic invertebrates (Chronic toxicity):
NOEC (Daphnia magna (Water flea)): 10 mg/l
Exposure time: 21 d
Method: OECD Test Guideline 211

Toxicity to microorganisms:
(Sewage sludge organisms): 1,080 mg/l
Exposure time: 3 H
Test Type: (NOEC) Respiration inhibition
Method: OECD Test Guideline 209

(Sewage sludge organisms): 1,728 mg/l
Exposure time: 0.5 H
Test Type: (NOEC) Respiration inhibition
Method: OECD Test Guideline 209

Persistence and degradability

Components:

Zolmitriptan:
Biodegradability: Remarks: The substance is partially biodegradable in soil. There is no evidence of hydrolysis in water.

Bioaccumulative potential

Components:

Zolmitriptan:
Bioaccumulation: Remarks: The substance is essentially insoluble in water. The substance has low potential for bioaccumulation.

Mobility in soil

Components:

Zolmitriptan:
Mobility: Remarks: The substance has low mobility in soil.

Distribution among environmental compartments: Remarks: No information available.

Other adverse effects
No data available

SECTION 13. DISPOSAL CONSIDERATIONS

Disposal methods
Waste from residues: Disposal should be in accordance with local, state or national legislation.

Contaminated packaging: Empty container will retain product residue. Observe all hazard precautions.
SECTION 14. TRANSPORT INFORMATION

Not classified as dangerous in the meaning of transport regulations.

SECTION 15. REGULATORY INFORMATION

Safety, health and environmental regulations/legislation specific for the substance or mixture

In order to comply with legal duties it is necessary to consult local and national legislation.

Standard for the Uniform Scheduling of Medicines and Poisons

Prohibition/Licensing Requirements

The components of this product are reported in the following inventories:

REACH

DSL

Zolmitriptan

AICS

ENCS

ISHL

IECSC

TCSI

TSCA

139264-17-8

Not listed

This product contains the following components that are not on the Canadian DSL nor NDSL.

Not listed

Not listed

Not listed

Not listed

Not listed

Not On TSCA Inventory

Further information
Revision Date : 18.01.2018
Other information : The Safety Data Sheet has been updated to the SAP EH&S Standard template. This update affects all Sections of the Safety Data Sheet. Minor changes: 6, 8
Date format : dd.mm/yyyy

The information provided in this Safety Data Sheet is correct to the best of our knowledge, information and belief at the date of its publication. The information given is designed only as a guidance for safe handling, use, processing, storage, transportation, disposal and release and is not to be considered a warranty or quality specification. The information relates only to the specific material designated and may not be valid for such material used in combination with any other materials or in any process, unless specified in the text.
