

Pollution Incident Response Management Plan (PIRMP) AstraZeneca Pty Ltd

Under Part 5.7 of the Protection of the Environment Operations (POEO) Act, there is a duty to notify each relevant authority (identified below) of a pollution incident, where material harm to the environment is caused or threatened. Material harm includes actual or potential harm to the health or safety of human beings or to ecosystems that is not trivial or that results in actual or potential loss (refer definitions) or property damage of an amount over \$10,000.

For the above pollution incidents, the AstraZeneca SHE Manager or delegate will be responsible for reporting to the authorities below without delay.

Early warnings for affected or potentially affected community members for any pollution incident are to be communicated to those members via a door knock process. The SHE Manager or nominee will be responsible for coordinating the door knock.

For air pollution incidents that may affect neighbours, those neighbours will be asked to close their doors and windows and stay indoors until further notice.

For water pollution incidents that may affect neighbours who could access the said water, those neighbours will be asked to avoid use of the water until further notice.

Any required updates of any pollution incidents will be via letterbox drop to the local community, notices in local papers or via door knocks as required.
